

Solid Step Cote for Bathtubs

Recommended Formulation: 02

Having a non-slip bathtub can be one of the most effective methods to eliminate slip and fall accidents. It is safe to say that most everyone has, at one time or another, experienced at least a close call with slipping in the tub or shower. The bathtub is also one of the most dangerous places to slip and fall considering the likelihood of falling awkwardly and the increased probability of a head injury. Considering the very small cost and effort associated with making your tub or shower non slip with **Solid Step Cote**, it's time to take action today!

For **hotels, motels and inpatient hospitals**, eliminating liabilities associated with slip and fall injuries in the bathtub or shower will be best addressed by adding anti slip treatments. The Americans with Disabilities Act dictates that all businesses must maintain their floors (including bathtubs and showers) in slip proof condition. Failure to comply results in significant fines, higher commercial insurance and workman's compensation, unnecessary injuries and death. Businesses are also eligible for tax credits and tax deductions when effective non slip solutions are applied.

Solid Step Cote 02 is unquestionably the best non slip product on the market for bathtubs and showers for the following reasons:

- Green/Environmentally friendly solution
- No fumes, odors, or VOC's (Volatile Organic Compounds)
- No mixing required
- Applies in minutes
- Ready to use within hours
- Creates invisible non slip surface
- Gentle on bare feet
- Far exceeds ADA standards for COF (Coefficient of Friction)
- Bonds with ANY bathtub/shower surface
- Waterproof sealer
- Prevents mold and mildew
- Lasts for years
- Easy/Safe cleanup in sink

So forget about chemicals or acid etching products that are unsafe, create toxic fumes and odors, burn and dull the surface of your bathtub, or simply do not work on fiberglass tubs. There's just no comparison...**Solid Step Cote** is the only truly simple and safe non slip bathtub and shower coating solution for any bathtub or shower.
