## ErgoDeck® with Steel No-Slip Cleats

Cleats are standard issue for professional athletes who want winning performance and safety on the field. For decades, cleats have proven to be effective for even the worst of field conditions.

Now, industrial athletes of every walk of life are geared for success, too! Whether on an oil-rig or on an engine line, ErgoDeck with Steel No-Slip Cleats are in a league of their own, providing a safe, dependable work surface that gritted products simply can't touch.

Hidden structural columns hold cleats secure.

### TOUGH PROBLEMS CALL FOR EVEN TOUGHER SOLUTIONS!

#### Wet and Dry Coefficient of Friction 1.10 per ASTM F 1677-05

**Traction.** Strategically spaced cleats deliver exceptional slip prevention in even the most extreme environments.

**Tough.** Individual support columns on underside hold cleats secure. Rated for workers up to 600 lbs!

**Maintenance.** Unlike gritted products, cleats will withstand power washing, scrubbing and other cleaning practices.

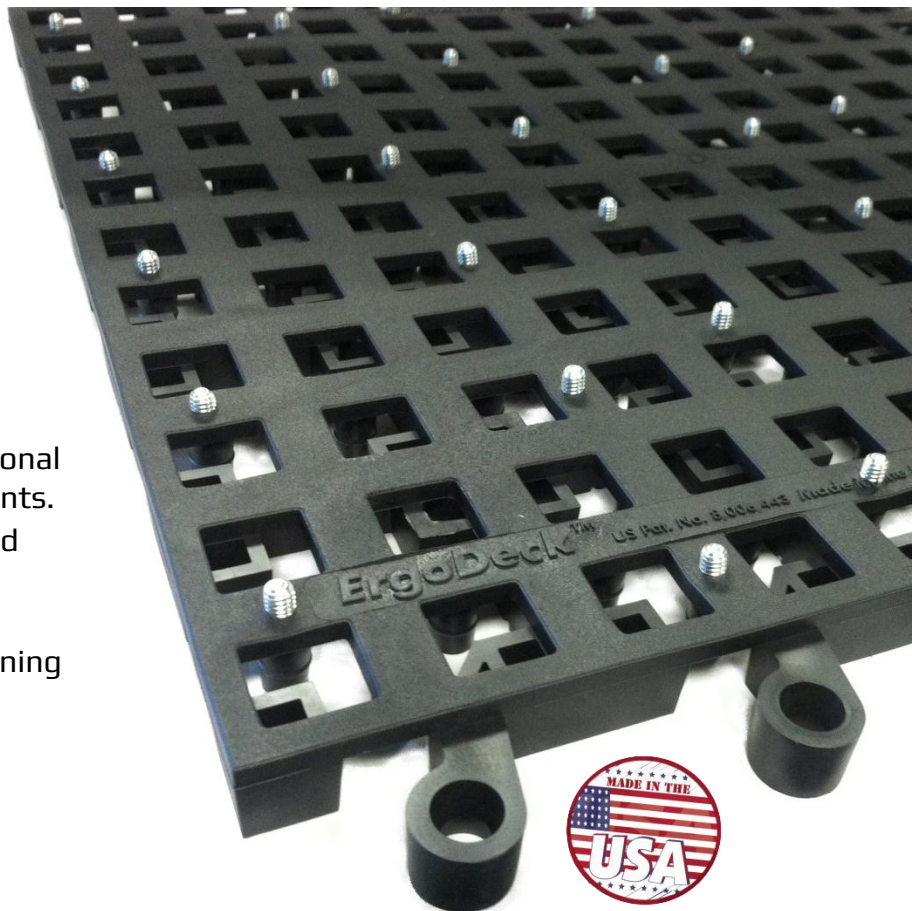

#### All this in addition to ErgoDeck's other Features!

**Ease of Installation.** Robust 18" x 18" tiles cover large areas quickly with no tools required

**Customizable.** Customize in 3" increments to fit any area or configuration.

**Secure.** Positive Interlocking System prevents separation yet zips apart for reconfiguration.

**Value.** Easily replace single tiles or sections as needed.
