## ErgoDeck® with Integrated No-Slip Cleats

Professional athletes are equipped with cleats for optimum performance and safety on the field.

Finally, industrial athletes are, too! ErgoDeck with Integrated No-Slip Cleats delivers a sure-footed work surface for maximum productivity and safety.

Like traditional playing surfaces, gritted products give some temporary traction but wear with use and become slippery with saturation. Cleats are a tried and true means to overcome such harsh field conditions.

Structural base for maximum cleat strength

### MORE FOR LESS!

#### Wet and Dry Coefficient of Friction 1.10 per ASTM F 1677-05

**Cost Savings.** 25% lower price than comparable gritted products that require a separate manufacturing process

**Traction.** Long lasting, high performance slip prevention where gritted products fail.

**Maintenance.** Unlike gritted products, cleats will withstand power washing, scrubbing and other cleaning practices.

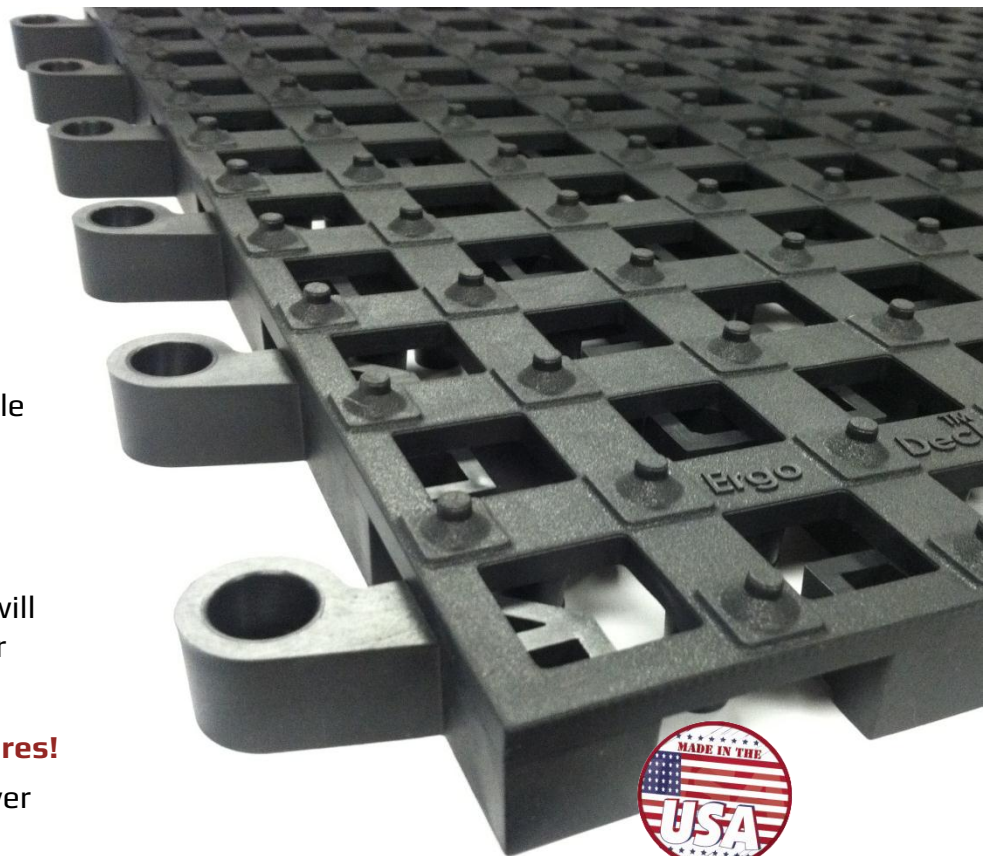

#### **All this in addition to ErgoDeck's other Features!**

**Ease of Installation.** Robust 18" x 18" tiles cover large areas quickly with no tools required

**Customizable.** Customize in 3" increments to fit any area or configuration.

**Secure.** Positive Interlocking System prevents separation yet zips apart for reconfiguration.

**Value.** Easily replace single tiles or sections as needed.

Style	Item Number	UOM
Solid	552.78x18x18BK-CS10	Case of 10
Open/Drainage	553.78x18x18BK-CS10	Case of 10
