

# PARK AVENUE

## Specification Sheet

### PERIMETER EDGING OPTIONS

- Application –** Indoor and outdoor.
- Construction –** “Never-Fray” needlepunch construction eliminates the need for edging. Matting can be cut to any size or shape transitioning seamlessly from one to the next.
- Texture –** Hobnail non-directional pattern.
- Face Fiber –** 100% Solution dyed UV stabilized polypropylene for maximum stain and fade resistance.
- Face Weight –** 37 oz/sq yd is 50% heavier than the average rental runner resulting in more water retention, durability, crush resistance, and aggressive soil removal.
- Total Weight –** .5 lb per square foot.
- Total Height –** (3/8) inches (variable).
- Backing –** Modified rubber. Non yellowing and non staining. Easily rolls and unrolls flat while reducing mat “creeping” on hard floors. Velcro available for use on carpet.
- Sizing –** Up to 13'-2" x 80' in a single piece enables us to manufacture any size or shape in the largest of lobbies.
- Flammability –** Passed (DOC-FF-1-70) Pill test.
- Water Retention –** (.57) gallons per square yard. Outperforms matting whose claim to fame is water retention.
- 3-Year Warranty –** 100% in first year, 50% in second year, 25% in third year.
- Installation –** Easy to self-install with a mat knife. Optional on site installation by a PROFORM certified master installer is available.
- Storage Cores –** Optional Heavy Duty fiber storage cores insure that matting is ready to lay flat without curling. (Always store carpet side out.)
- Edging Options –** Safety Edging: A 1.5" vinyl reducer which is applied with glue and stitched, with mitered corners and reinforced with vinyl corner supports.  
Uni-Flow: Our frayless construction allows the elimination of edging, creating the elegant appearance of an area rug and a seamless transition from one mat to the next. (Most economical, attractive and safe).  
Heat bevel: Edge is melted at a 45° angle.
- Cleaning –** Regular vacuuming, carpet extraction or bonnet cleaning as needed.

**LEED:** Possible LEED-NC credits: MR Credit 4 (1-2 points), IEQ Credit 4.1 (1 point)

**Recycled Content:** 15% post-consumer
